

DUAL-PROPULSION ENDLESS POOL®

For couples who want to stay fit together, and for families who want more active playtime, the Dual-Propulsion Endless Pool lets you have it all.

With two swim currents, you and a partner can swim or exercise at the same time, each at your own independently controlled speed. Competitive pairs can challenge each other with every swim!

Swim Together, Stay Together. Call today.

As Seen on TV

NBC's hit weight-loss show, *The Biggest Loser*, used a Dual-Propulsion Endless Pool for their contestants. Complete with two hydraulically powered underwater treadmills, the adjustable-speed current delivered a progressively challenging, low-impact workout.

With two stations for side-by-side exercise, the Dual-Propulsion pool delivers the fun and camaraderie of getting fit with a friend!

A swimming machine made for two
