

S Spa pleasure simplified all year round

COVANA

A NEW INNOVATION from COVANA

COVANA EVOLUTION

The solution for those who dream BIG!

COMPATIBLE HOT TUBS

Square: 7' to 8' (2,14 m to 2,43 m)

Rectangular: 8' x 9' to 8' x 11'
(2,43 m x 2,74 m to 2,43 m x 3,35 m)

Round: Up to 8' (2,43 m) in diameter

One simple solution, many applications

Designed for greater simplicity, the COVANA EVOLUTION is innovative, versatile and compatible with multiple hot tub sizes: no more limits to having fun! Also, easy installation as it operates with a 115-volt / 15-amp circuit for North America and a 230-volt / 10-amp circuit for Europe.

Economical & environmentally friendly

The COVANA EVOLUTION has a higher insulating value than a standard cover. In addition, it seals the hot tub, keeping heat in and preventing evaporation for optimal savings on water, energy and chemical products.

FULLY AUTOMATED

Give yourself a break.
The COVANA EVOLUTION raises and lowers with the simple turn of a key.

No more heavy, cumbersome manual covers. Now use your hot tub in virtually any weather conditions.

Quality is our trademark

This product designed, engineered and manufactured in Canada offers the assurance of the highest quality. The COVANA EVOLUTION is made to handle the harshest weather conditions and when down in the closed position, can support up to 600 lb (272 kg).

The safest solution

The COVANA EVOLUTION covers the entire surface of your hot tub and locks securely to keep children and intruders out. That's a responsible way of enjoying a hot tub.

YOU choose the colour

Since we all have different tastes, we let you choose the colour of your COVANA. The EVOLUTION comes in mocha or slate, allowing you to arrange your setup as you wish with perfect matching colours for your environment.

SLATE

MOCHA

Actual product colours may vary from images shown.
