

PERFORMANCE ENDLESS POOL®

Step up to a smoother, more versatile current.

Our Performance current is both smoother and, at its top speed, faster than our Original Endless Pool current. The custom-designed two-propeller system delivers a superior swim current:

It's larger. The system moves more water, requiring a 24"x18" outlet grill – that's almost 30% larger than in our Original model! The broader, deeper current gives beginners more room to drift.

It's faster (or not). Power it up to its demanding top speed of 1:05/100 yards, or at the push of a button, slow the current down to a gentle pace.

It's smoother. Many swimmers even call it "soft." We can get technical about the propellers' counter-rotation and how interior turning vanes calm turbulence, but it all comes down to this – the current just feels better!

A significant step up from our Original current, the Performance Endless Pool offers greater versatility for all.

Whether you're a strong swimmer or a novice, this pool adapts to where you are now ... and delivers an ideal environment in which to grow your skills and your fitness level.

A larger current for greater resistance

Performance Endless Pool®

The Performance Endless Pool includes all of the standard features of an Original Endless Pool.

Our Performance Endless Pool also boasts:

- 5-hp, two-propeller swim current generator with wireless remote control
- 24" x 18" water outlet grill - almost 30% larger

All of the same options are available as for the Original Endless Pool (see page 6).
