

MODULAR POOLS

ELITE ENDLESS POOL®

When only the best will do.

What makes the Elite Endless Pool so revolutionary? It starts with the construction. A 7.5-hp motor drives two custom-designed propellers, moving more than double the water volume of our powerful Original current system. The propellers' greater distance from the outlet grill (itself a spacious 24" x 18") gives the current more time to straighten, so you enjoy an ultra-smooth swim, at speeds up to :51/100-yards.

This is the stroke-training pool that's installed on the decks of University of Michigan, USC, Harvard, Auburn, Penn State, and SwimMAC Carolina. Now it's available for residential installation.

Turbulence-free power, high-volume precision ... that's what makes the Elite Endless Pool the choice for top-tier coaches, for great swimmers, and for swimmers who aspire to greatness.

The perfect coaching pool

Elite Endless Pool®

The Elite Endless Pool includes all of the standard features of an Original Endless Pool.

Our best current is made possible with these upgrades:

- 7.5-hp, two-motor, side-mounted, two-propeller swim current generator with wireless remote control
- 24" x 18" water outlet grill
- Three 59" x 18" stainless steel VGB compliant suction grills
- 220-volt, 50-amp GFCI power requirement
- 8' to 10' widths

All of the same options are available as for the Original Endless Pool (see page 6).
