

e.Vac[™]

ROBOTIC POOL CLEANER

An innovative cleaner
with plenty of bite

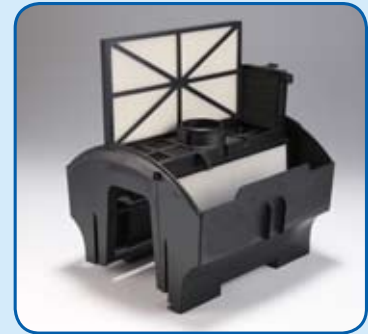

Features of the Hayward e.Vac robotic pool cleaner:

- The QuickClean technology cleans most size and shaped pools in 60 minutes or less
- Calculates the size of the pool and programs itself for the most time and energy efficient cleaning path
- The energy used by a standard light bulb is all that's needed to power the e.Vac!

Top access allows quick removal of filter frame for easy clean-up

Cleanup is easy – just remove the filter and rinse.

E.Vac™ by Hayward is your pool's most valuable asset.

E.Vac uses up to 94% less energy than most pressure cleaners. The energy used by a standard light bulb is all that's needed to power this innovative cleaner! Hayward's e.Vac is a floor specific cleaner that delivers performance and price in a uniquely robust design.

E.Vac's high-quality performance cleaner features and benefits:

- The QuickClean® technology cleans most size and shaped pools in 60 minutes or less
- Calculates the size of the pool and programs itself for the most time and energy efficient cleaning path
- Runs separately from the pool's pump and filter system
- Requires no hoses or additional equipment
- Top-access filter cartridges allow for convenient cleanup - just remove and rinse with a garden hose
- Clear dome cover for visible cleaning action
- Perfect for residential pools up to 20 x 40 ft.

	e.VAC™
Work Cycle	2 hours
Motor Unit	24 V/3.5 amps
Volume Capacity	530 inches ² unit
Filter Media Type	2 fine porosity filter elements
